Legislative Background

Statement No. 25 of the Governmental Accounting Standards Board was amended by Statement No. 67 of the Governmental Accounting Standards Board. Statement No. 67 became effective for the plan's financial statements for the fiscal year beginning after June 15, 2013. Statement No. 67 establishes financial reporting standards for state and local government pension plans that are administered through trusts or equivalent arrangements. The objective of this statement is to improve the usefulness of the information included in pension plan reports.

The Governmental Accounting Standards Board amended Statement No. 27 with Statement No. 68; the effective date for Statement No. 68 is for the fiscal year beginning after June 15, 2014. The purpose of this report is to provide pertinent disclosure information relating to the Pension Plan for the fiscal year ending June 30, 2022 financial statements for the City of Knoxville. Statement No. 68 of the Governmental Accounting Standards Board requires the determination of the pension expense for the fiscal year ending June 30, 2023. Statement No. 68 shows the amounts of deferred outflows and inflows of resources related to the pensions from various sources.

Purpose and Use

This report has been prepared exclusively for the City of Knoxville. Actuarial computations under Statements No. 67 and No. 68 are for purposes of fulfilling employer governmental accounting requirements. The calculations reported herein have been made on a basis consistent with our understanding of the statements. USI Consulting Group is not responsible for consequences resulting from the use of any part of this report without prior authorization or approval. This report provides actuarial advice and does not constitute legal, accounting, tax or investment advice. Determinations for other purposes, such as funding, bond ratings, or judging benefit security, may be significantly different from the results shown in this report.

Actuarial findings in this report are based on actuarial assumptions which reflect expected plan experience. Although the deviation of the actual future plan experience and the expected experience inherently creates some uncertainty with the results, in our opinion the actuarial assumptions reasonably reflect the expected future experience of the plan. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. All of these factors can result in the risk of volatility in the Net Pension Liability over time.

Data

The calculations shown in this report have been prepared using employee data, plan documentation, and plan assets furnished by the City of Knoxville as of June 30, 2022. While we have not audited the data, we have reviewed it for reasonableness and internal consistency, and to the best of our knowledge, there are no material limitations to the data provided. Summaries of the census data and plan provisions can be found in the Participant Data and Basis of Valuation sections of this report.

Subsequent Events

We are unaware of any subsequent event after June 30, 2022 which would have a material effect on the results presented in this report.

Assumptions, Methods, and Procedures

The results presented in this report comply with the assumptions, methods, and procedures under the Statements No. 67 and No. 68. For Statement 67 the results are based on the June 30, 2022 actuarial valuation date with a measurement date and reporting date of June 30, 2022. For Statement 68 the results are based on the June 30, 2022 actuarial valuation with a measurement date of June 30, 2022 and reporting date of June 30, 2023. The plan sponsor sets all actuarial assumptions. Statements No. 67 and No. 68 mandate the use of the Entry Age Normal actuarial funding method for the purposes of those statements.

Changes in Plan Provisions, Actuarial Assumptions, and Actuarial Methods

The following changes were made to the actuarial assumptions and methods effective June 30, 2022 based on the July 1, 2021 experience study (see Summary of Actuarial Assumptions beginning on page 48 for details):

1. Mortality tables were changed for all groups to reflect more recently published tables with mortality improvement where appropriate.
2. The investment return assumption was changed for non-Division H from 7.25% to 7.20% effective July 1, 2022, decreasing by 5 basis points each year to a rate of 7.0% (will be reviewed further at next experience study in 2026).
3. The amortization period was changed from a 24-year closed period beginning July 1, 2013 to a 20-year closed period beginning July 1, 2022.

Summaries of the plan provisions, actuarial assumptions and methods can be found in the Basis of Valuation section of this report.

Plan Administration

The City of Knoxville Pension Board administers the City of Knoxville Pension System, a single employer defined benefit pension plan that provides pensions for all permanent full-time general and public safety employees of the City, as well as some members of the Board of Education. The Charter of the City of Knoxville grants the authority to establish and amend the benefit terms to the City of Knoxville Pension Board.

Management of the City of Knoxville Pension System is vested in the City of Knoxville Pension Board, which consists of nine members – four elected by plan members, one member appointed by the City Council who must be a resident of the City, two mayoral appointees who must be residents of the City and have pension and/or investment expertise, and the Finance Director and City Mayor, who serve as ex-officio members.

Additional Information Regarding GASB Disclosure

Current Notes:

1. The City continues to pursue a conservative policy regarding contributions to ensure that all benefits are properly funded.
2. As a result of the July 1, 2021 experience study, the following assumption updates were incorporated beginning July 1, 2022:
 - Changing mortality for all groups
 - Changing investment return from 7.25% to 7.20% (for all except Division H) effective July 1, 2022, decreasing by 5 basis points each year to a rate of 7.00%

For a summary of assumptions in affect prior to July 1, 2022, see the City of Knoxville Valuation and Report as of July 1, 2021.

3. Effective July 1, 2013, Division H provisions have been incorporated into the valuation. All new hires participate in Division H effective January 1, 2013. The investment return assumption for Division H is 5.50%.
4. GASB 67 replaces GASB 25 effective for the fiscal year ending June 30, 2014. The valuation date, disclosure date, and measurement date all fall on the same date for purposes of GASB 67.
5. GASB 68 replaces GASB 27 effective for the fiscal year ending June 30, 2015. It is assumed the measurement date for GASB 68 will be 12 months before the disclosure date. For the first year of application (ending June 30, 2015), the measurement date is June 30, 2014 (as is the valuation date).

Historical Notes:

1. Effective July 1, 1999, the Knoxville Utilities Board (KUB) split-off into its own plan and is no longer part of the City of Knoxville Pension System. Historical information in this disclosure does reflect KUB, to be consistent with prior disclosures. KUB will not be included in current or future year disclosures for the Pension System.
2. Effective January 6, 2001, Plan F liabilities are combined with Division C. The schedule of funding progress has been broken down by employee group beginning July 1, 2001 to show the specific impact on the unfunded bodies (Division C/Plan F).
3. Effective July 1, 2004, the board adopted a funding policy to contribute at least 40% of the real cost (entry age cost) but no more than a) the prior year percent of payroll plus 2% or b) 120% of the prior year percent of payroll, if more.
4. Effective July 1, 2007, liabilities are calculated for GASB and funding purposes under the Entry Age Normal funding method.
5. Effective July 1, 2007, asset gains and losses are smoothed over 10 years.
6. As a result of the July 1, 2016 experience study, the following assumption updates were incorporated beginning July 1, 2017:
 - Changing mortality for all groups except Division H-GG and Division H-UB
 - Changing salary increase rates
 - Changing investment return from 7.375% to 7.25% (for all except Division H)

For a summary of assumptions in affect prior to and after July 1, 2017, see the City of Knoxville Valuation and Report as of July 1, 2017.

(b) Disability Incurred Other than in Line of Duty

Upon the death of a member who is receiving benefits on account of permanent disability incurred other than in line of duty:

- (2) Each dependent child receives a monthly benefit of \$75 until age 19, or age 23 if a full-time student.

If benefits payable under (1) and (2) exceed the benefit the member was receiving at death, the dependents' benefits are reduced proportionately.

- (a) A member with at least 5 years of service (as of July 1, 1997) who terminates employment is eligible to receive a refund of contributions or a deferred vested retirement benefit for life, commencing on normal retirement date. The benefit is computed as 2% of the member's average salary for each year of service the member would have completed on normal retirement date, subject to a maximum of 25 years, reduced by the ratio of years of service the member had completed at termination to the years of service that the member would have completed if the member had continued to work until normal retirement. If death occurs prior to commencement of the deferred benefit, a refund of employee contributions plus simple interest is payable to the designated beneficiary or the member's estate, as applicable.
- (b) A member with 25 years of service is entitled to a deferred vested retirement benefit computed as in (a) above, or the member may elect in lieu thereof to receive an immediate monthly benefit payable for life. If death occurs prior to commencement of a deferred benefit, payments are made in accordance with any option that was elected by the member. A modification of this type of option is also available, under which the member receives a smaller initial benefit, but the monthly amount reverts to the level payable if no option had been elected in the event the spouse predeceases the member.

Option B - A life annuity, with 60, 120 or 180 monthly payments guaranteed.

Option C - A cash refund annuity.

Option D - Special design: The supplemental plan provisions, as reviewed by the pension board and approved by city council, may authorize additional forms of benefit, including benefits payable in whole or in part as a single sum.

A member who repays any refunded contributions will be credited with the hypothetical account balance, adjusted with interest credits as appropriate.

100. Termination before Retirement (Section 1381.4 F)

A member who has completed at least 10 years of service may elect either

- (a) to receive a refund of employee contributions with simple interest, and if re-employed within six years, the member will be eligible to apply for reinstatement, or
- (b) to leave contributions in the fund, and upon subsequent employment, prior service will automatically be reinstated. If not reemployed, the member is eligible to receive a monthly deferred vested retirement benefit payable at normal retirement date.

If the member dies prior to the commencement of any benefit, and if the member elected a form of benefit with a designated beneficiary of a dependent or spouse, a benefit shall be payable according to the terms of that option. If no such election of option is in effect, the optional benefit shall be computed as though the member had elected option A, with 50% to continue after death to the surviving spouse for life. If no spouse is living, a refund shall be payable to the estate.

Paragraph 43 of Statement No. 67 provides for an alternative method to be used other than the projection of the pension plan's fiduciary net position based on projected contributions, benefit payments and investment earnings. The City's current contribution policy, which was adopted effective July 1, 2022, requires the City to contribute the normal cost plus the 20-year closed amortization of the unfunded liabilities in the fiscal year following the annual valuation. As of the July 1, 2022 valuation, the current amortization period is 20 years. The unfunded liability as of percent of actuarial assets as of July 1, 2022 was 33.7%. Based on actuarial theory, if the actuarial assumptions are met, the plan's fiduciary net position will remain positive.

Spouse Frequency and Ages

Assume 85% married, with husbands four years older than wives

Actuarial Valuation Method

Entry Age Normal

All groups - Unfunded liability will be amortized over a 20-year period beginning July 1, 2022.

Current amortization period is 20 years (closed amortization).

The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to

generate the liabilities. These inputs include economic and non-economic assumptions, plan provisions, and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model is checked for accuracy and reviewed for reasonableness.

Asset Valuation Method

Market Value, adjusted for 10-year phase-in of each year's difference between actual and expected value. Actuarial Value to be no more than 120% and no less than 80% of Market Value.

Cost of Living Adjustment

3.5% per annum for all except Division H

3.0% per annum for Division H

Refund of Employee Contributions

It is assumed all members that terminate prior to age 40 will take a refund of employee contributions (whether or not they are vested).

Effective Date of Actuarial Assumptions

All actuarial assumptions were reviewed during the July 1, 2021 experience study. All changes recommended were adopted effective for the July 1, 2022 valuation.

Risk Discussion

Actuarial Standard of Practice No. 51

Effective November 1, 2018, actuarial funding valuation reports are required to include a discussion of the risk associated with measuring pension obligations and determining pension plan contributions. The risks that may reasonably be anticipated to significantly affect the plan's future financial condition are discussed below.

Investment Risk

Due to the plan's equity exposure, investment returns will likely be more volatile than liability valuations. Therefore, there is a risk that the funded status of the plan, as well as plan contributions, could be volatile. This risk is modeled each year by varying future investment returns.

Interest Rate Risk

Due to the plan's estimated liability duration of 11 to 13, a 1% decrease in interest rates would increase the liability 11% to 13%. Further, to the extent the plan's fixed income assets are not correlated to the plan's future benefit payments, there is risk that the funded status of the plan, as well as plan contributions, could be volatile due to changes in interest rates.

Longevity Risk

Since nearly all benefits are paid as annuities, the plan is sensitive to changes in overall population longevity. As a result, the liabilities will fluctuate with changes in longevity. As members live longer than expected, the plan's liabilities may increase.

Contribution Policy Risk

No known significant risks. The City makes the recommended contribution each year.
